5. INVESTMENTS

The fair values of the Company's bonds have been determined using quoted market prices from an orderly market at the reporting date for those or similar investments. If quoted market prices from an orderly market are not available, the fair value is determined using an income approach valuation technique (present value using the discount rate adjustment technique) that considers, among other things, interest rates, the issuer's credit spread, prepayments, performance of the underlying collateral for loan-backed securities, and illiquidity by sector and maturity.

The statement value and fair value of bonds at September 30, 2009 were as follows:

	Statement value	Gross unrealized gains	Gross unrealized losses	Fair value
	(In thousands)			
U.S. Treasury securities and obligations of U.S. government corporations and agencies	\$ 4,842	49	(1)	4,890
State, political subdivision, and special revenue obligations	408	44	0	452
Debt securities issued by foreign governments	76	5	0	81
Corporate securities	1,029	28	0	1,057
Asset-backed securities	59	0	(1)	58
Mortgage-backed securities	2,672	80	(1)	2,751
Total bonds	\$ 9,086	206	(3)	9,289

Bonds in an unrealized loss position are regularly reviewed for other-than-temporary declines in value. Factors considered in determining whether a decline is other-than-temporary include the length of time a bond has been in an unrealized loss position and the reasons for the decline in value. Assessments include judgments about an obligor's or guarantor's current and projected financial position, an issuer's current and projected ability to service and repay its debt obligations, the existence of, and realizable value for, any collateral backing the obligations, and the macro-economic and micro-economic outlooks for specific industries and issuers. Estimating the future cash flows of loan-backed securities also involves assumptions regarding the underlying collateral such as prepayment rates, default and recovery rates, existence of subordinated classes capable of absorbing losses, and third-party servicing abilities.

In performing its other-than-temporary impairment reviews, the Company, in consultation with its engaged portfolio manager, considers the relevant facts and circumstances relating to each investment and exercises judgment in determining whether a bond is other-than-temporarily impaired. Among the factors considered are whether the decline in fair value results from fundamental credit problems of the issuer, or from a downward movement in the market as a whole, and the likelihood of recovering the carrying value based on the current and short-term prospects of the issuer. Unrealized losses are determined to be temporary where such losses are primarily the result of market conditions, such as increasing interest rates, unusual market volatility, or industry-related events, and where the Company also believes it is probable that the Company will be able to collect all amounts when due in accordance with the contractual terms of the investment and, furthermore, has the intent and ability to hold the investment until maturity or the market recovery.

NOTES TO FINANCIAL STATEMENTS

The bonds shown in the table below, all of which are rated “A” or better, or are U.S. government obligations or are U.S. government agency mortgage-backed obligations and, therefore, have minimal credit risk, are subject to normal market fluctuations. Based on the Company’s evaluation of the bonds shown in the table below and the Company’s intent and ability to hold these securities until they mature or recover in value, the Company does not consider the bonds to be other-than-temporarily impaired at September 30, 2009.

The risks inherent in reviewing the impairment of any investment include the risk that market results may differ from expectations; facts and circumstances may change in the future and differ from estimates and assumptions; or the Company may later decide to sell the security and realize a loss as a result of changes in the specific facts and circumstances surrounding a bond, or the outlook for its industry sector or the economy.

As of September 30, 2009, the gross unrealized losses segregated between those that were in a loss position for more than twelve months and those that were in a loss position for less than twelve months were as follows:

	Number of issues		Gross unrealized losses		Fair Value
	(In thousands)				
Bonds in a loss position more than 12 months:					
Asset-backed securities	1	\$	(1)		58
	1		(1)		58
Bonds in a loss position less than 12 months:					
U.S. Treasury securities and obligations of U.S. government corporations and agencies	1		(1)		265
